

OUR MISSION

Provide professional and reliable service to our customers through an unwavering commitment to excellence, quality and safety. To persist in distinguishing ourselves as an innovative leader.

COMPANY PROFILE

DIAMOND CORING has provided quality services to our customers since 1988. The firm's primary business is in the concrete sawing and drilling industry, with emphasis on large scale projects. This is our most predominant field – having successfully completed projects for IDOT, INDOT, WisDOT, City of Chicago, various County Government Agencies, SBC, ComEd. Our firm actively recruits the most experienced personnel in the industry and by offering continuing education, on the job training, and OSHA Safety Training, we will retain our staff for years to come.

DIAMOND CORING is always expanding its capabilities to serve our growing customer base. Working in Illinois, Indiana, Michigan and Wisconsin gives our firm an edge in emergency mobilization, enabling our clients to meet deadlines while reducing costs. Partnering, Quality Control, Service, and Safety are our trademarks.

SAFETY

DIAMOND CORING'S #1 priority is SAFETY.

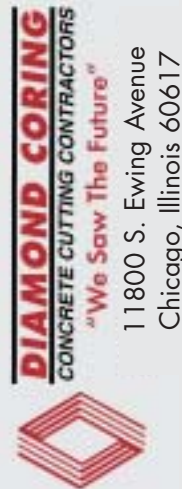

All of our employees are required to obtain the OSHA 30 hour course card.

Our safety record has been outstanding with an up to date program covering every safety aspect of the Construction Industry.

Our safety procedures include, but are not limited to these areas of safety:

- Personal Safety
- Blade and Bit Safety
- General Saw Safety
- Cutting/Work Area Safety
- Pinch Points
- Confined Space
- Silicosis
- Road Work Safety

. . . and many other Construction Safety related issues.
